Background Information from the ISU Development Commission

The Development Commission acknowledges that the funding is a gesture from the ISU and cannot cover all, or even a significant proportion, of the costs for Skaters to continue skating. However, the Development Commission has made a proposal that has been accepted by the Council, based on the following criteria:

to support first those Skaters who have left Ukraine and are living in the countries of other ISU Members (e.g. GERMANY) and who can therefore not be assisted directly by their own Federation
that the funding shall be to cover skating costs only (not living costs)
to allocate funds initially for a 6-month period (May-October 2022)
to allocate funds 'per Skater' on the basis of CHF 300 per month per national team Skater and CHF 50 per month for young/non-national team Skaters

Based on the information provided about Skaters in Germany by the Deutsche Eislauf-Union e.V. (DEU), the money will be used for the above mentioned benefit of those Skaters.

For data protection reasons, the simplified sport passport application must also be submitted to the DEU via a German club. The DEU will only initiate payment if all above mentioned criteria are met.
